## What is this product?

### Type

This product is a UCITS.

### Term

The sub-fund has no termination date. However the Management Company may, at its discretion, decide to terminate or merge the sub-fund or its share classes.

### Objectives

The sub-fund's objective is to provide its shareholders with the best possible return for the risk taken by the sub-fund, through an actively managed portfolio of shares in companies that operate in or are directed towards emerging markets.

The sub-fund deploys an ESG integration strategy to support the investment mandate. The product is therefore categorized as Article 8 as per the Sustainable Finance Disclosure Regulation. For more information, please consult the annex to the Company's prospectus or refer to the disclosures on our webpages:

[www.skagenfunds.com/sustainability/sustainable-investing](http://www.skagenfunds.com/sustainability/sustainable-investing)

The sub-fund is an actively managed fund with a global investment mandate. The sub-fund shall invest at least 50 percent of its assets in companies listed in emerging markets, i.e. countries or markets not covered by MSCI Developed Market Series. The remainder of the assets shall be invested in companies that have operations aimed towards emerging markets. The sub-funds' strategy is to invest in undervalued companies in relation to which the Investment Manager can identify clear catalysts for their true value to be realised. In order to reduce risk, the sub-fund shall seek to maintain a reasonable balance between geographical regions and industrial sectors. The investment manager has normally a long investment horizon, and attaches greater value to fundamentals than to short-term trends in the market.

The sub-fund may invest up to 10 percent of its assets in other funds.

The sub-fund does not invest in derivatives at present.

The sub-fund's benchmark index is the MSCI Emerging Markets Net Total Return (EUR) Index. The sub-fund is actively managed in reference to its benchmark, which is used for performance comparison purposes and for the purpose of calculating the performance fee payable to the Investment Manager.

The benchmark is chosen to represent the investable universe for the sub-fund. The weightings of securities held in the sub-fund will typically deviate significantly from benchmark weightings. In addition, the investment manager can take large positions in securities which are not in the benchmark if they identify a specific investment opportunity. This will result in the sub-fund having a high tracking error (typically over 4%).

Dividends that the sub-fund receives are automatically reinvested in the sub-fund and are thus part of the share value.

Investors may redeem their shares on demand.

### Intended Retail Investor

Non-professional (retail) clients through intermediaries only, professional clients and eligible counterparties. Clients with basic capital markets knowledge or experience (about sub-funds' characteristics and risks). Suitable to Clients who can bear no capital guarantee.

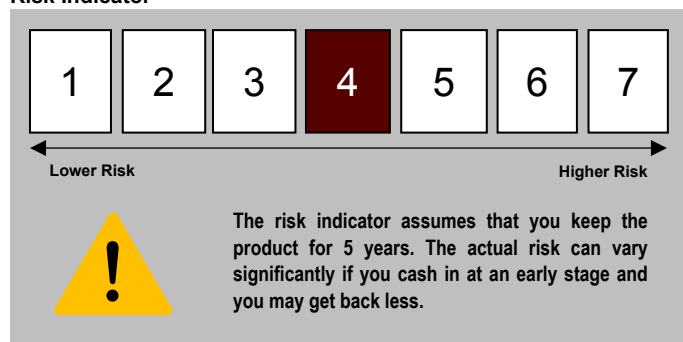

The risk the client should be willing to accept is defined in the SRI score in section "What are the risks and what could I get in return?". The sub-fund is suitable for clients who seek capital growth and have an investment horizon of at least 5 years.

This sub-fund is deemed incompatible for clients who cannot bear capital losses or cannot bear limited capital losses.

The Depositary of the Fund is J.P.Morgan SE, Luxembourg Branch.

## What are the risks and what could I get in return?

### Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not

able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Other risks materially relevant to the PRIIP not included in the summary risk indicator: Event risk, liquidity risk, operational risk, counterparty risk, derivatives risk. **Be aware of currency risk.** You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

### Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

**Recommended holding period: 5 years**

**Example Investment: EUR 10,000**

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	2,550 EUR	2,130 EUR
	Average return each year	-74.52 %	-26.60 %
Unfavourable	What you might get back after costs	7,680 EUR	8,760 EUR
	Average return each year	-23.21 %	-2.61 %
Moderate	What you might get back after costs	10,330 EUR	11,810 EUR
	Average return each year	3.33 %	3.38 %
Favourable	What you might get back after costs	16,190 EUR	17,860 EUR
	Average return each year	61.91 %	12.30 %

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the proxy between March 2015 and March 2020.

The moderate scenario occurred for an investment in the proxy between October 2018 and October 2023.

The favourable scenario occurred for an investment in the proxy between February 2016 and February 2021.

### What happens if FundRock Management Company S.A. is unable to pay out?

The Management Company is responsible for administration and management of the Fund and does not typically hold assets of the Fund (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Management Company, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Fund or the depositary is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any, of this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	115 EUR	697 EUR
Annual cost impact (*)	1.2%	1.2% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.6% before costs and 3.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs
